## STUDENTS' REVIEW

If words could define how good Success Point is, I'd write a 1000 positive reviews about them. Most of the credit for me 'getting into Christ University goes to them. I gave my first attempt for CUET in Kolkata and couldn't crack it. Since my elder brother has been a student in Success Point and cracked CUET and SET (Symbiosis Entrance Test, I too joined Success Point for a Crash Course 'for nearly 15 days and saw a progress instantaneously. I was never great at Mathematics and didn't have the subject in my 12th standard so, it was an area in which I lacked a lot. The teacher covered all the topics and made it pretty easy by giving me a step by step guide and even helping me a bit after hours. But, the thing that stood out was my GDPI session with Prakash Sir. I lacked the habit of communicating in English and was never very confident in doing so therefore, my interview went pretty bad since I was unable to handle the pressure but, in 6 sessions I was able to improve by a big margin. Apart from the interview, he covered all the essential topics in current affairs and brought my confidence back. I gave the second attempt of CUET Bangalore and aced the interview.

### **HARSH MOHTA, BIRLA HIGH FOR BOYS BBA HONORS, CHRIST UNIVERSITY (2018 – 2021)**

I joined Success Point for their classes to help prepare for my entrance tests. The quality of the classes was very high and the teachers know exactly what they need to teach. All the handouts and the study materials are given in class. The teachers will answer all the queries that a student has. They also conduct PI and MP sessions which help students to improve their oratory skills and teach them how to behave in an interview as well as help with body posture. Success Point helped me in getting into the colleges that I wanted to. Thank you to everyone at Success Point.

### **SHIV BHATIA, LA MARTINIERE FOR BOYS BBA, NARSEE MONJEE INSTITUTE OF MANAGEMENT STUDIES (2019-2022)**

I had an amazing experience with Success Point. Everything that was to be taught was brought to us in the simplest way possible and that to online during the pandemic so that learning never stops! This type of learning was new for all of us but they taught everything with such dedication that we all never felt that we are sitting away. Especially the success that came in after all the studies made the experience adorable.

### **TANISHQ GARG, ASANSOL BBA, JAIN UNIVERSITY (2021-2024)**
